WARM SPRINGS TRIBAL CODE CHAPTER 350

HUNTING AND TRAPPING CODE

350.010 General. Since time immemorial the various tribes and bands of Indians now confederated as the Confederated Tribes of the Warm Springs Reservation of Oregon held Indian title to and right of occupancy based upon aboriginal possession of certain lands along the Columbia River and its tributaries. Since time immemorial these areas have been historic usual and accustomed hunting places of the members of the said tribes and bands and of the members of the Confederated Tribes of the Warm Springs Reservation since its organization pursuant to the provisions of § 16 of the Act of June 18, 1934 (48 Stat 984) as amended by the Act of June 15, 1935 (49

2025 Reservation Hunting Regulations

Stat 378). The Tribes and Bands of Middle Oregon executed a treaty with the United States at Wasco, in Oregon Territory, on June 25, 1855, which Treaty set apart the Warm Springs Reservation for our people's use forever, and reserved the exclusive right to hunt on the reservation and guaranteed to our people the right to hunt on unclaimed land in common with the citizens of the United States.

These hunting rights, and the wildlife resources on which they depend, constitute an invaluable and irreplaceable asset to the members of the Confederated Tribes. They form an important cultural, historical and economic asset of the Tribe and its members. The Tribal Council, in order to protect and preserve the tribal property for the benefit of tribal members both in the present and future generations and in the exercise of its sovereign powers, finds it necessary to regulate and control all hunting on the Warm Springs Reservation of Oregon and the exercise of treaty-reserved hunting rights by tribal members off the reservation.
